You can only use a secret key to access an existing account. This is because the desktop client stores your login information locally on your computer, so your account is as safe as the security of your personal computer.

一、打开snapswap.com  
如果没有钱包，点击create new account  
如果已有钱包，直接点select account file  
登录进入钱包

Welcome to Ripple, a global value exchange

### Create new account

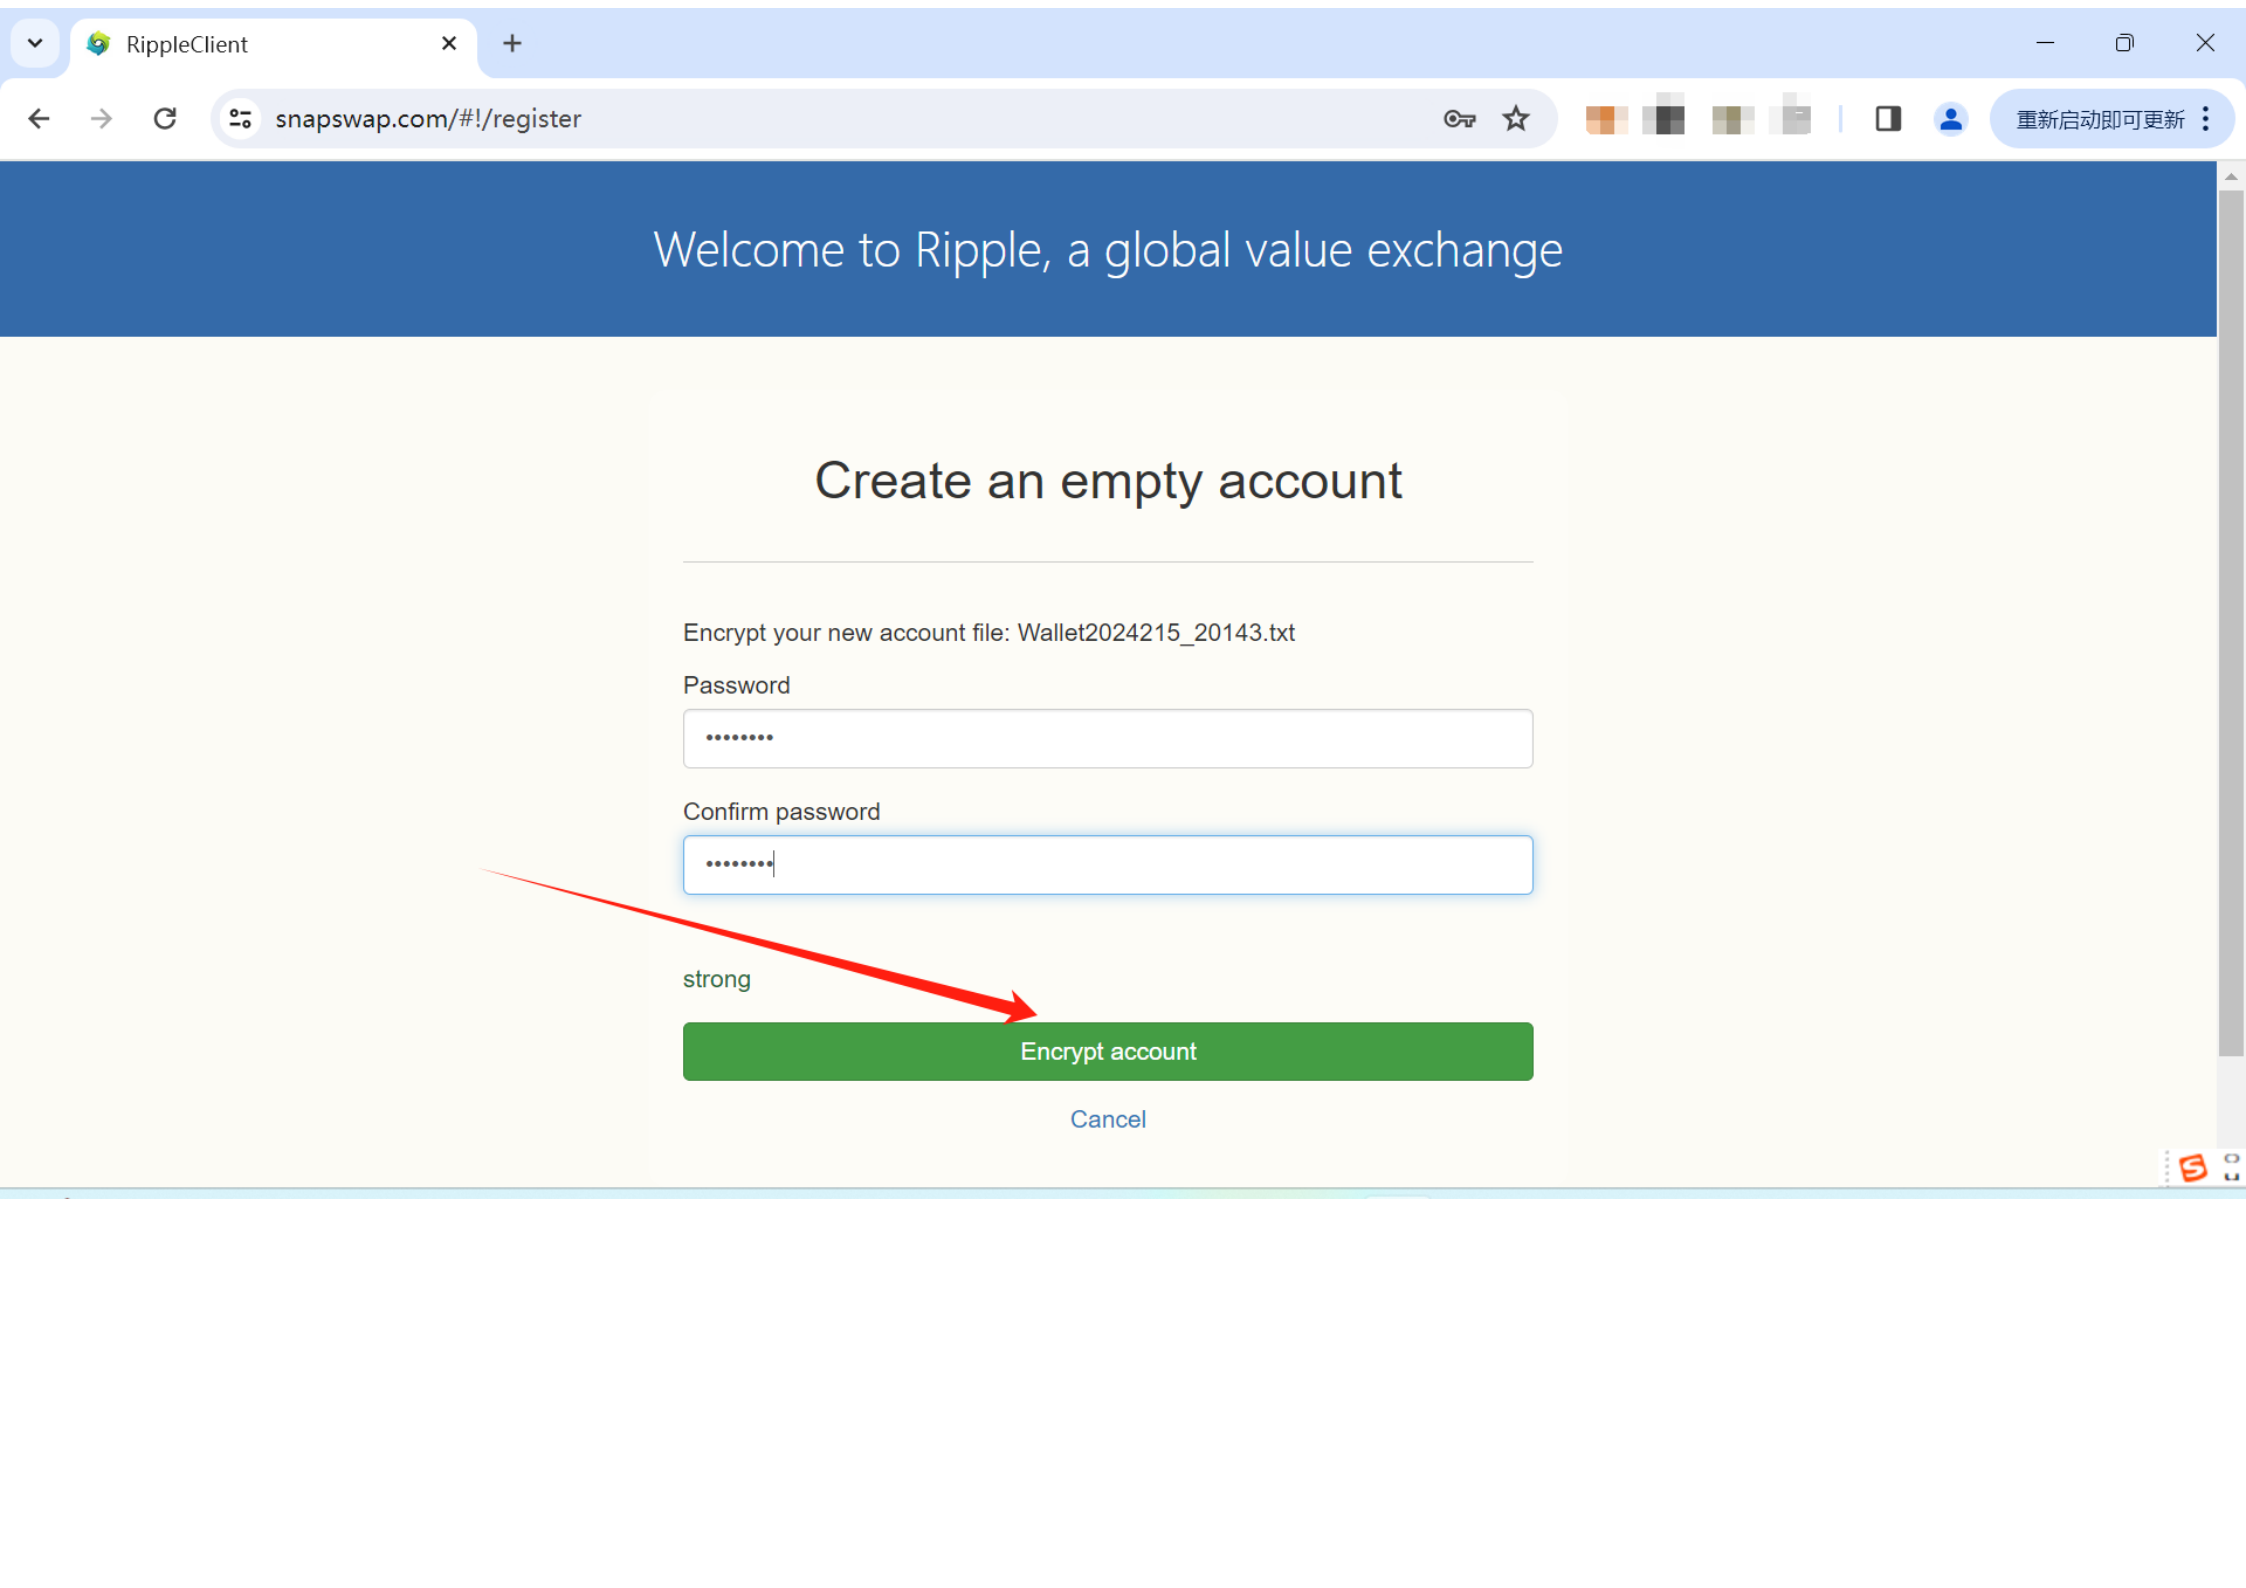

Create an empty account

Import existing secret key

Import existing mnemonic

Open account

🇬🇧    🇯🇵    🇨🇳

1. 点击此处并选择刚才保存的钱包文件，打开

2. 输入刚才设置的钱包密码

3. 点击open account 打开自己的钱包

You can only use a secret key to access an existing account. This is because the desktop client stores your login information locally on your computer, so your account is as safe as the security of your personal computer.

r开头的字符串为钱包地址，即钱包公钥  
从交易所提币填写此地址，tag可以随便填写几个数字或者不填

⚠️ The resource was not found. You must have at least 10 ripple in your account for it to be activated! Each trust line or offer requires a 2 ripple reserve in addition. To make things easy, send at least 20 ripples to the account.
